

K-Love is important to me and my family. We have 4 teenage children. We currently have no radio stations that play christian music in our area. This music is encouraging and uplifting.

The effect on our local community would be devastating if we were to have another station replace K-love. K-Love is a non-profit radio station that encourages our community be playing positive songs, giving encouraging words and is a benefit to our teens and older who desire to listen to something other than what is currently available in our community. Our teens need as much encouragement and good role models now more than ever. I urge you to please reconsider any change to this station. Sincerely, Liane Christenesn
